About Ben's Wish Weekend Backpack Program

On weekends, many children have to fend for themselves. Ben's Wish Weekend Backpack Program supplies nutritional food packs to children to take home for the weekend or on school breaks, so they can return to school ready to study on Monday morning. The local school districts are asking Ben's Wish to provide weekend food packs for 1,400 kids weekly, that's double the number we are currently serving. There is an overwhelming need and we need your help.
